PROJECTS

IMAGE CAPTIONING:-
LEARNING TO GENERATE :- TEXT GUIDED VISUAL FEATURE EXTRACTION FOR IMAGE CAPTIONING USING JOINT TWO-PHASE LEARNING MODEL:

➢ Generating textual descriptions of images has been an important topic in computer vision and natural language processing. These techniques use human annotated images for training and testing the models

➢ These models require a large number of training data to perform at their full potential.

➢ Image captioning requires to recognize the important objects, their attributes and their relationships in an image.

DECLARATION

I here by declare that the above furnished details are correct to the best of my knowledge.
